ASSIGNMENT

This Assignment is effective as of the date of the last signature of the Parties, and is from Atul M. Mehta, Ph.D., a citizen of the United States residing at 76 Walsh Drive, Mahwah, NJ 07430-2565 ("Mehta"), to Celgene Corporation, a Delaware corporation, and having a place of business at 7 Powder Horn Drive, Warren, New Jersey 07059 ("Celgene").

**RECITALS:**

- A. Pursuant to a Research & Development Agreement dated May 2, 1996 between Elite Laboratories, Inc. ("Elite") and Celgene ("R&D Agreement"), Elite developed a controlled release dosage formulation of methylphenidate having a release profile specified by Celgene, and Celgene filed United States Patent Application No. 09/038,470 on March 11, 1998 entitled Delivery of Multiple Doses of Medications, also identified as Woodcock Docket No. CELG-0085 (a divisional application of 08/892,190), based on such development in the names of Mehta and his collaborators at Celgene which has issued as U.S. Patent No. 6,635,284 on October 21, 2003 (the "Patent").
- B. The R&D Agreement, a letter agreement between Elite and Celgene dated May 6, 1997 ("First Letter Agreement"), and a further letter agreement between Elite and Celgene dated November 11, 1998 ("Second Letter Agreement") obligate Mehta to assign his rights in the Patent to Celgene and obligate Celgene to grant back to Elite an exclusive license under the Patent outside the field of methylphenidate drugs.
- C. Mehta, accordingly, wishes to assign his rights in the Patent, and Celgene wishes to receive this assignment.

**NOW, THEREFORE, the parties covenant and agree as follows:**

- (1) Mehta hereby sells, assigns, transfers and sets over to Celgene his entire right, title and interest in and to the Patent, and all reissues, re-examinations, and extensions thereof, the same to be held and enjoyed by Celgene, its successors, assigns, nominees or legal representatives, to the full end of the term for which the Patent, and *any* reissue or reexamination thereof, has been granted, or may be extended, as fully and entirely as the same would have been held by Mehta had this assignment, sale and transfer not been made.
- (2) Mehta represents that he has the full right to convey his entire interest herein assigned, and that he has not executed and will not execute any agreement in conflict herewith. Mehta agrees that he will execute such additional papers provided by Celgene as may be reasonably necessary or desirable to confirm or perfect this Assignment, if any; and he further agrees to communicate to Celgene or its nominee all pertinent facts relating to the invention of the Patent and to give such testimony regarding the invention as may be reasonably necessary in legal proceedings concerning the patent, provided that Celgene shall pay to Mehta his expenses and his consulting fee (\$400.00/hr) for his time spent in doing so.

## Joint Inventors/Contributors

- (3) Celgene acknowledges that commencing prior to entering into the R&D Agreement with Celgene, Elite has applied its technology to develop controlled release dosage formulations of drugs other than methylphenidate and that nothing in this Assignment derogates from Elite's right to continue doing so. Celgene agrees that it shall not use the technology disclosed to it in confidence by Elite in the course of Elite's performance under the R&D Agreement in connection with any drug other than methylphenidate, and Celgene acknowledges that the R&D Agreement, the First Letter Agreement and the Second Letter Agreement remain in full force and effect.
- (4) This Assignment shall be binding upon the successors and assigns of Mehta and Celgene, and shall inure to the benefit of the successors and assigns of Mehta and Celgene.

IN WITNESS WHEREOF, the Parties have executed this document as follows:
